CENTER LINE OF TRACK

A technical diagram of a streetcar platform. A horizontal line represents the 'CENTER LINE OF TRACK' on both sides. A platform structure is centered on this line. The distance from the center line to the left edge of the platform is labeled '5'-5"'. The distance from the center line to the right edge is also labeled '5'-5"'. On the left side of the platform, there is a vertical post with a diamond-shaped light fixture on top. Below the platform, there are two circular labels: 'B' on the left and 'A' on the right, positioned under the platform's base.
